5<sup>th</sup> Grade Math, Social Studies, Science, and Religion

This school year is the start of my 16<sup>th</sup> year teaching at St. Bernadette School. I earned my B.S. degree in Elementary and Early Childhood Education from Clarion University of PA. I have a Master's Degree in Curriculum and Instruction from Penn State University.

Major topics included in the 5<sup>th</sup> grade curriculum include a study of American history including the Colonial times and the Revolutionary War period. Fractions, decimals and division are a large part of the math curriculum. Life Science including the different biomes of the world, and Physical Science including the Laws of Motion, are topics for Science. The science fair will be done in 5<sup>th</sup> grade in groups during school time.
