About me:

I am currently in my 7th year teaching at Saint Bernadette School in Monroeville, PA. I teach 7th/8th grade Mathematics and 7th grade Religion. I am Level 2 certified by the Pennsylvania Department of Education.

I earned my Bachelor's degree in Mathematics with Secondary Education certification from Shippensburg University in 2010. I recently earned my Master's degree in Education from Duquesne University.

This past summer, I received a Honeywell Educator Scholarship to attend a unique professional development workshop held at the U.S. Space & Rocket Center in Huntsville, Alabama. I trained like a real astronaut, performed "space" missions, collaborated in group learning STEM activities, and attended talks by renowned NASA engineers and astronauts. It was an unforgettable experience on many levels: collaboration, compassion, self-reflections, STEM education, and international communication.

Interests:

When I am not busy being a teacher, I love to do many different things. I love taking spinning classes at my local gym, going to the beach in the summer, and attending any kind of sporting event. I am a huge Pittsburgh sports fan! You can see me at any Pirates, Penguins, or Steeler game. I average about ten Pirates games each season.

"Mathematics is not about numbers, equations, computations, or algorithms: it is about UNDERSTANDING."
– William Paul Thurston
